

ELITE SERIES
FIBERGLASS

The Elite Series is a collection of premium fiberglass doors designed with detailed panels that mirror traditional stile and rail door construction to create crisp shadow lines and heightened curb appeal. Authentic wood grain patterns of Fir, Oak, Mahogany, Knotty Alder and Cherry in Traditional, Craftsman, Modern and Rustic designs offer the warmth and beauty of real wood, with the superior performance and maintenance-free features of fiberglass.

Elite Series doors feature engineered lumber hinge and lock stile construction to maximize dimensional stability and resist warping. The polyurethane foam core provides the best thermal protection available and bottom rails feature rot-resistant composite construction.

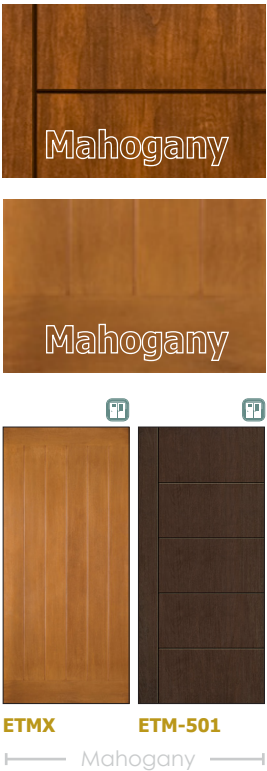

Specifications

elite Textured			
Panel	Luxury detailed fiberglass profile	Additional Details	Rust proof
Surface	Authentic woodgrain fiberglass		Dent proof
Edge (stile) Material	Stainable/paintable wood or composite		
Finish	Stain or paint	Door Performance	★★★★★
Slab & Frame Warranty	25 years		
Glass Warranty	10 years Decorative 5 years Clear		
Bottom Material	Composite		

Modern

Mid-century Modern homes look organic with a heavy influence from Scandinavian designers. Lines are clean, soft and the use of glass is prominent - accentuating the use of natural light. Homes have sparse millwork, with post and beam construction. The idea behind this style is to blur the boundaries between the interior and exterior.

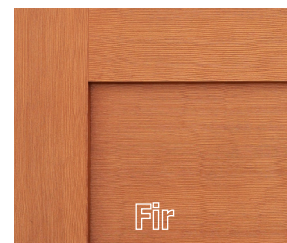

Acclimated Entry Systems™

Craftsman

The doors within our Craftsman collection feature clean, architecturally correct lines and simple, unique details. The authentic glass designs, genuine vertical graining, and panel styles suit any Craftsman, Bungalow, Mission, Prairie, or Cottage home.
