DURABLE COLORS. UNBEATABLE SELECTION.

Choose colors that are engineered for lasting beauty with Ply Gem Mastic. By using cutting-edge finishes like the proprietary Alupalure® 2000 finish, every color is just as durable as the metal underneath. And the best part is, these long-lasting colors come in a vast array of options so homeowners can get colors that match flawlessly from product to product and beautify their home.

Trim Sheet in Portsmouth Blue and Misty Shadow, Cedar Discovery® Hand-Split Shake in Terra Cotta, Board + Batten Designer Series™ and Ventura® Hidden Vent Soffit in Misty Shadow

HIGH-PERFORMANCE ALUMINUM

AN INDUSTRY LEADER IN QUALITY AND PERFORMANCE.

Thanks to more than 30 years of extensive testing and our proprietary AlumaLure® 2000 finish, we're able to offer the most premier aluminum products in the industry. From quality performance to low-maintenance features, our selection is superior in every way.

QUALITY PERFORMANCE

ALUMALURE® 2000 is an exceptional two-coat finish that holds its color and resists corrosion. It outperforms the competition in the harshest weather conditions.

LIFETIME WARRANTY

The peace of mind of one comprehensive warranty that covers material and labor with a 100% coverage schedule for the lifetime of the original owner.

LOW MAINTENANCE

Won't chip, flake or blister, crack or split when bent and shaped. It cuts clean without burrs and applies flatter with no buckles, ripples, waves or "oil-canning."

COLOR COORDINATION

We have the broadest array of colors in the industry. From vinyl to fiber cement to steel, our colors match or compliment a wide variety of cladding perfectly. In addition, colors stay true and last longer because they are made from inorganic pigments.

Test our metal. We do. Rigorously. Relentlessly.

WEATHERING Color retention (resistance to fading) is tested by subjecting our products to real-time weather conditions and accelerated UV Testing. This ensures that they will hold up in the most extreme environmental conditions.

RIGIDITY Panels are designed and engineered to be more rigid so the siding remains straight on the wall.

COLOR READ TEST Using a spherical spectrophotometer, a 10,000-watt xenon flash tube bounces light off a siding panel. This information is then analyzed to determine if the color falls within accepted ranges for color consistency and match.

VERTICAL HEIGHT IMPACT TEST Measures the product's durability and ability to resist impact forces — the result of proper thickness, formulation and impact modifiers.

GLOSS TEST A digital-readout microgloss meter is used to scan siding to determine if its gloss falls within a target range. Gloss is important to the aesthetic appeal of the siding.

SUN EXPOSURE TEST

ALUMALURE® 2000 Competitor's Polyester

ACCELERATED CORROSION TEST

ALUMALURE® 2000 Single-coat polyester over metal from a scrap-based mini-mill

Envoy Double 4" in Custom Color, F-Drip and Trim Sheet in White

ENVOY® ALUMINUM SIDING

DOUBLE 5" **SINGLE 8" SMOOTH** **DOUBLE 4"**

- NOMINAL .024 THICKNESS**
- HIGH-PERFORMANCE LOCKING SYSTEM**
Provides greater stability and increased locking area.
- STRONG NAIL HEM**
Secure fastening — added strength and stability.
- 165 MPH WIND SPEED — RATED UP TO 165 MPH**
- PERFORMANCE METALS ALUMINUM SIDING**
Faster, easier cutting = faster, easier installation.
- AVAILABLE IN A RANGE OF BEAUTIFUL COLORS**
Coordinate colors perfectly with other Ply Gem products. See Product Spec Guide for details.
- 1/2" PANEL PROJECTION**
Enhanced shadow lines replicate the appearance of real wood siding.
- ALUMALURE® 2000**
This revolutionary finish holds its color and resists the toughest corrosive elements — even UV radiation and polluted air. Applied in a two-coat process, Alumlure® 2000 is a combination of corrosion-inhibiting primer and an ultra-tough, mar-resistant topcoat.
- V.I.P. LIMITED LIFETIME WARRANTY**
Premium guarantee of lasting quality and peace of mind — from Ply Gem, a trusted industry leader for 70+ years (see warranty for complete details).

ENDURANCE® ALUMINUM SIDING

DOUBLE 5" DUTCH LAP **DOUBLE 4"**

- NOMINAL .019 THICKNESS**
- HIGH-PERFORMANCE LOCKING SYSTEM**
Provides greater stability and increased locking area.
- STRONG NAIL HEM**
Secure fastening — added strength and stability.
- 165 MPH WIND SPEED — RATED UP TO 165 MPH**
- PERFORMANCE METALS ALUMINUM SIDING**
Faster, easier cutting = faster, easier installation.
- AVAILABLE IN A RANGE OF BEAUTIFUL COLORS**
Coordinate colors perfectly with other Ply Gem products. See Product Spec Guide for details.
- 1/2" PANEL PROJECTION**

Premium guarantee of lasting quality and peace of mind — from Ply Gem, a trusted industry leader for 70+ years (see warranty for complete details).

ENVOY® ALUMINUM SOFFIT

Manufactured from only the highest-grade aluminum, Envoy, our strongest and hardest aluminum soffit, meets or exceeds Q801 standards — delivering rigid performance across long spans.

NOMINAL .019 THICKNESS

V-GROOVE

- Our v-groove designs replicate the classic look of tongue-and-groove wood soffit more closely than any other metal soffit system.
- The industry's only v-groove in a 6" width, our design helps eliminate sagging and nail facing — a big plus.
- Perforated v-groove offers the most net free ventilation per lineal foot of any aluminum soffit system.

U-GROOVE

- Wider grooves cast a more subtle shadow.
- Helps hide construction imperfections.

COLOR COORDINATION

Available in a broad array of colors that match perfectly with Mastic trim, fascia, rainware and all Ply Gem siding options. See Product Spec Guide for details.

ALUMALURE® 2000

This revolutionary finish holds its color and resists the toughest corrosive elements — even UV radiation and polluted air. Applied in a two-coat process, Alumlure® 2000 is a combination of corrosion-inhibiting primer and an ultra-tough, mar resistant topcoat.

V.I.P. LIMITED LIFETIME WARRANTY

Premium guarantee of lasting quality and peace of mind — from Ply Gem, a trusted industry leader for 70+ years (see warranty for complete details).

ENDURANCE® ALUMINUM SOFFIT

Engineered for outstanding strength and superior ventilation performance, Endurance represents a great value in a low-maintenance soffit.

NOMINAL .016 THICKNESS

V-GROOVE

- Our v-groove designs replicate the classic look of tongue-and-groove wood soffit more closely than any other metal soffit system.
- The industry's only v-groove in a 6" width, our design helps eliminate sagging and nail facing — a big plus.
- Perforated v-groove offers the most net free ventilation per lineal foot of any aluminum soffit system.

RAINWARE: SECTIONAL 5" AND 6" GUTTERS

STRONGEST SYSTEM AVAILABLE FOR RESIDENTIAL CONSTRUCTION

Protects homes by supporting up to 50 pounds per lineal foot to handle more heavy rain, snow and other extreme weather than any other gutter.

PERFORMANCE METALS: THE HIGHEST-QUALITY ALUMINUM — MEETS OR EXCEEDS Q801 STANDARDS

Exclusive to Ply Gem Mastic, our high-tech aluminum alloy is stronger and more rigid than the competition's best metal — plus, a double-coating of our proprietary Alupalure® 2000 finish delivers an exceptionally durable, smooth surface.

EXPANSION JOINTS

Engineered for normal expansion and contraction, which can be problematic in longer runs and hip-roof installations — an advantage not available for "seamless" gutters.

HANGERS ENGINEERED TO SUPPORT MORE WEIGHT THAN ORDINARY SPIKES

Keeps the gutter system firmly in position so water won't leak into the home, providing optimum performance over time.

FREE-FLOATING HANGERS

Uniquely designed to allow gutters to slide as they expand and contract, eliminating stress on nails.

ENVOY SECTIONAL 6" OG GUTTER
21' AND 37'

AVAILABLE IN A RANGE OF BEAUTIFUL COLORS

Coordinate colors perfectly with other Ply Gem products. See Product Spec Guide for details.

ALUPALURE® 2000

THE ISP™ DIFFERENCE — INTEGRATED STANDARDS OF PERFORMANCE

ISP™ is our comprehensive product development, testing, certification and quality control program. This stringent set of standards and conformance specs ensures products meet or exceed industry standards and/or code approvals. In addition, we go the extra mile with a battery of internal tests designed to predict and scrutinize performance attributes such as tensile strength, rigidity, wind resistance, color fidelity and weatherability.

A HEALTHY RESPECT FOR THE PLANET — AND OUR CUSTOMERS.

Ply Gem can help you meet your sustainable building goals and earn points in leading green building certification programs. Ply Gem Mastic products have features that positively contribute to sustainable practices, improved energy efficiency or lifecycle benefits of homes. All are important aspects of sustainable building and contribute to the Ply Gem Enviro initiative.

For more information on how Mastic products can help you meet your sustainable building goals, refer to the *Building to Make a Difference* white paper available at mastic.com.

SUSTAINABLE RESOURCES:

- Performance Metals® have been third-party verified and Green Circle certified to contain a minimum of 67% recycled content.
- Ply Gem facilities reuse and recycle pallets and packaging material, reducing raw material needs and landfill use.
- Mastic vinyl siding is manufactured from two abundant natural resources: salt (57%) and natural gas (43%).¹
- During the manufacturing process of Mastic vinyl siding, all unused material is reclaimed and reused, creating one of the most efficiently-produced exterior claddings available today.
- When installed and used properly, Mastic products never require paint or stain, which reduces VOCs released into the atmosphere.

ENERGY EFFICIENCY:

- Performance Metals® V-Groove soffit and roof and eave vents support proper attic ventilation efforts, which moderates attic temperatures and improves a home's energy efficiency. Mastic V-Groove metal soffit provides the most net free ventilation per linear foot of any aluminum soffit system.
- Vinyl siding requires less energy to manufacture per square foot than brick and mortar.²
- Mastic vinyl siding is lighter weight per square than other cladding options, so it requires less fuel to transport. Less fuel used means less pollution.
- When correctly installed, the Structure® Home Insulation System™ can reduce thermal bridging and help meet the requirements of an ENERGY STAR® Qualified new home. The Structure® Home Insulation System™ in a Double 6" profile has an R-value³ of R-3.0 using the testing method ASTM C1363, as specified by the Federal Trade Commission.

LIFECYCLE BENEFITS OF HOMES:

- All Performance Metals® aluminum accessories are easily recyclable. In fact, at the end of its lifecycle in building applications, 100% of the aluminum can be recycled.
- Mastic vinyl siding is durable and requires no site finish. Performance Metals® stand up to weather with virtually no maintenance. Designer Accents use thicker construction and a baked lacquer finish to ensure that they hold up season after season.
- When installed properly and under normal use, our products should never require painting or staining. They won't crack, peel, blister, or rot.

¹ "A Dozen Things You Might Not Know That Make Vinyl Siding Green," page 9, Tad Radzinski, P.E., LEED AP, and VSI, October 10, 2009. <<http://www.vinylsiding.org/greenpaper/>>

² Ibid, page 10

³ R means resistance to heat flow. The higher the R-value, the greater the insulating power.

GIVE YOUR HOME THE PERFECT FINISH

The big things like siding and windows make the house, but it's the finishing touches that make it home. So start with the rich texture of shakes or the crisp shadow lines of lap siding, but finish with charming shutters, expertly crafted trim or rustic stone. Creating your dream home exterior can start and finish with Ply Gem. Every product we make is designed to perform and look beautiful together. Because a house is a home when it's **perfectly finished.**
