Colors & Finishes

PELLA® 250 SERIES

FRAME COLORS

Create a signature look with solid-color and dual-color frames. Dual-color frames allow you to choose a different color for the exterior with a White interior.

SOLID-COLOR:

DUAL-COLOR FRAMES:

¹ Based on the force required to bend a window frame profile.

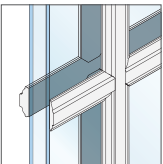

² Window energy efficiency calculated in a computer simulation using RESFEN 5.0 default parameters for a 2000 sq. foot existing single-story home when comparing a Pella 250 Series vinyl window with InsulShield Advanced Low-E triple-pane glass with argon to a single paned wood or vinyl window. The range of energy efficiency will vary from 54% to 77% and will vary by location. Your actual savings will vary. The average window energy efficiency is based on a national average of 94 modeled cities across the country with an adjustment based on population. For more details see pella.com/methodology.

Grilles PELLA® 250 SERIES

GRILLES

Choose the look of simulated divided light or make cleaning easier by selecting grilles-between-the-glass.

WINDOW LIMITED OPENING DEVICES

A vent stop can be engaged or disengaged manually and restricts how far the bottom sash of a double-hung window can open. A window opening control device (WOCD) complies with a safety standard and allows for ventilation, emergency escape and rescue when released. A WOCD automatically limits the sash opening to less than four inches, unless it is intentionally disengaged, enabling the sash to fully open.

MOON

SLATE
GRAY

ESPRESSO

¹ To achieve a Grade 40 rating on ASTM F842, a test for forced entry excluding glass breakage, the optional footbolt must be installed and engaged.

² Available on dual-pane products only. Not available on sliding patio doors with grilles-between-the-glass.

Glass PELLA® 250 SERIES

INSULSHIELD® LOW-E GLASS

Advanced Low-E insulating dual- or triple-pane glass with argon¹

NaturalSun Low-E insulating dual- or triple-pane glass with argon¹

SunDefense™ Low-E insulating dual-pane glass with argon¹

ADDITIONAL GLASS OPTIONS

Bronze-tinted Advanced Low-E insulating glass with argon¹

High-altitude InsulShield Low-E insulating glass¹

Obscure insulating glass^{1,2}

Tempered glass

Screens³

FLAT

Durable and functional, conventional fiberglass screens are available on all venting vinyl windows.

SLIDING PATIO DOOR SCREEN

InView™ high-transparency screens come standard and provide a clearer view than conventional fiberglass screens. Sliding patio door screens are color-matched to exterior frames.

¹ InsulShield Low-E insulating glass is available without argon in most products.

² Available in both dual-pane and triple-pane glass.

³ Warning: Screen will not stop child or pet from falling out of window or door. Keep child or pet away from open window or door.
