BOARD+BATTEN

DESIGNER SERIES™ VINYL SIDING

Board+Batten Designer Series™ delivers a striking vertical style. Use it as the primary exterior cladding or as an accent to highlight architectural features. Available in a wide range of colors, including new, darker hues featuring SolarDefense Reflective Technology™ for a modern look that never needs painting. Advanced engineering ensures superior impact resistance and outstanding durability in all weather conditions.

INSIDE OR OUT, IN GRAND SCALE OR JUST ACCENT AREAS... BOARD+BATTEN DELIVERS JAW-DROPPING BEAUTY.

ENTRY WAYS

An inviting, rustic look can easily be achieved with Board+Batten Designer Series™ around entrances and deck areas.

ARCHITECTURAL FEATURES

Use Board+Batten Designer Series™ to accent gables or peak areas. It adds contrast, curb appeal and helps increase the value of your home.

INTERIORS

Board+Batten provides the perfect accent to indoor or four season rooms, bringing texture and height to the overall design of the room.

DORMERS

Board+Batten Designer Series™ highlights the vertical plane of this dormer, providing the perfect counterpoint to the angled roof lines.

*Tested in accordance with ASTM D5206. Wind speed rating will vary depending on specific code region and construction method. Refer to local building codes for detailed requirements concerning allowable wind loads and specified conversion tables for actual wind speeds. Example wind velocity for 67 PSF is 167 MPH Zone B @ 30' building height.

PREMIUM .048" NOMINAL THICKNESS

Tough, impact-resistant and exceptionally durable panel.

WIND VELOCITY — RATED UP TO 167 MPH*

MIAMI-DADE COUNTY APPROVED

Standard wind load design pressure (DP) up to 67 PSF* & wind velocity rated up to 167 MPH.

ADVANCED LOCKING SYSTEM & NAIL HEM

Built to create easier installation, with more precise and secure fastening.

ROLLOVER, REINFORCED NAIL HEM*

Easier installation — more precise and secure fastening.

9/16" PANEL PROJECTION

Enhanced shadow lines replicate the appearance of real wood panels.

HANG-TOUGH™ TECHNOLOGY

Boosts durability so panels are more resistant to cracking, impact and thermal distortion.

BREATHE EASY

BREATHE EASY

Cutting does not produce harmful silica dust which can cause lung disease.

SUSTAINABLE

Crafted of readily available natural materials — our vinyl siding is safe, sustainable and recyclable.

REFLECTIVE TECHNOLOGY™

BEST IN CLASS

V.I.P. LIMITED LIFETIME WARRANTY

NO FADE NO DISTORTION PROMISE+

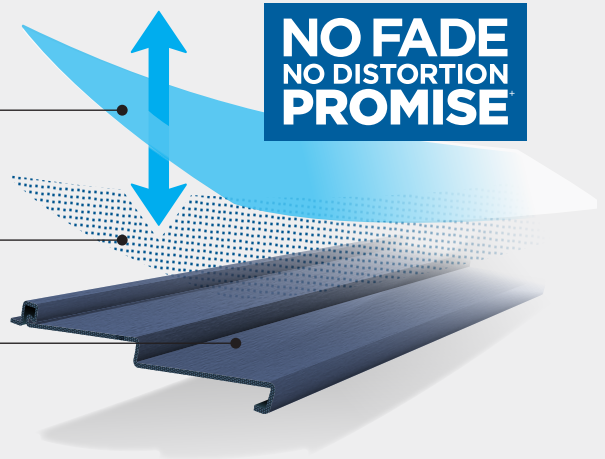

OUR MOST LUXURIOUS COLORS FEATURE SOLARDEFENSE REFLECTIVE TECHNOLOGY™

Whatever architectural style you prefer will be enhanced with lap siding in deep, rich luxurious colors. And with SolarDefense Reflective Technology, you don't have to worry about fading or distortion because each board is engineered to resist the sun's harshest UV rays. So go ahead, splurge on one of these deep hues you've always wanted, knowing they'll stay looking fresh and dreamy for years to come.

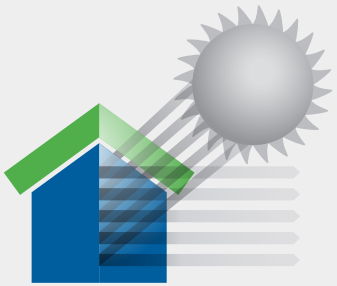

TOP LAYER
Disperses heat and helps resist fading by allowing light energy to flow both ways.

COOLING COMPOUND
Scatters light, reflecting heat away keeping panels cooler.

BASE LAYER
Stands up to heat, preventing distortion.

SOLARDEFENSE PANELS REFLECT UV RAYS TO PREVENT FADING AND DISTORTION.

THE BEST PROTECTION **FOR THE BOLDEST COLORS**

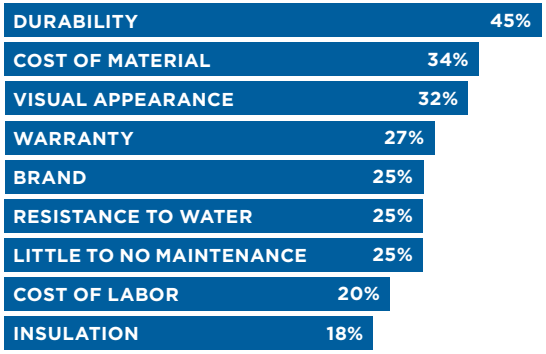

Engineered to absorb less of the sun's heat, our newest, darkest colors are designed to resist fading and heat distortion better than ever. Made with tough, UV-stable polymer stands up to damaging rays. New cooling compounds scatter more light to reflect more heat away from the siding, and keeping panels cooler even on the hottest days. SolarDefense Reflective Technology is so effective at protecting our boldest, darkest colors from the sun that we back it with an unmatched No Fade, No Distortion Promise.+

+ Warrantied against (i) fade in excess of a Delta E of 1 Hunter unit and (ii) heat distortion from normal climate conditions or normal reflective light sources. See product warranty for details and terms and conditions.

VINYL SIDING DELIVERS WHAT HOMEOWNERS WANT.

MOST IMPORTANT FACTORS IN SIDING MATERIAL ACCORDING TO HOMEOWNERS:

Source: Ply Gem primary research, December 2020

DURABILITY

If you're looking for siding that is durable and low maintenance, and looks beautiful, Board+Batten siding is the ideal choice. Board+Batten will enhance your home's appearance today — and for years to come.

COLOR AND TEXTURE

Featuring a realistic wood grain, Board+Batten is available in a wide range of shades, including bold, dark colors backed by our SolarDefense Reflective Technology™. SolarDefense is engineered to absorb less of the sun's heat, our newest, darkest colors are designed to resist fading and heat distortion better than ever. Our tough UV-stable polymer withstands to damaging rays. New cooling compounds scatter more light to reflect more heat away from the siding, and keep panels cooler even on the hottest days.

LIFETIME WARRANTY

Board+Batten vinyl siding is backed by our V.I.P. Limited Lifetime Warranty, which covers against manufacturing defects, excessive fading and hail damage for as long as you own your home. To protect your investment, the warranty is transferable in the event you sell your home (see warranty for details).

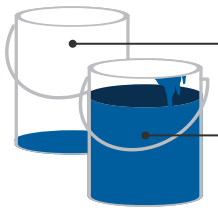

THIRD-PARTY TESTED FOR QUALITY

Mastic vinyl siding products are certified through the Vinyl Siding Institute (VSI), which sponsors third-party certification to ensure vinyl siding quality. Mastic vinyl siding meets or exceeds ASTM D3679 performance standards for impact resistance, weatherability, product thickness and performance in extreme conditions — all requirements in the VSI certification program.*

*Consult the VSI website at polymericexteriors.org for a current list of certified products and colors.

NEVER NEEDS PAINTING OR STAINING

Unlike wood, stucco or fiber cement, Board+Batten vinyl siding never needs painting or staining, which saves you time and money year after year.

COMPARE MAINTENANCE COSTS

Board+Batten: $5
(just soap and water)

Other cladding options: up to $6,000
(Based on typical prep, caulking and repainting of the average home)

WE TEST OUR VINYL SIDING RIGOROUSLY & RELENTLESSLY.

OIL CAN TEST

Siding panels are placed under heat strips and saturated to 120° — 140°F to make sure the siding doesn't warp or buckle.

WEATHERING

Color retention (resistance to fading) is tested by subjecting Mastic products to real-time weather conditions and accelerated UV testing. This ensures that Mastic products will hold up in the most extreme environmental conditions.

RIGIDITY

Panels are designed and engineered to be more rigid so the siding remains straight on the wall.

COLOR READ TEST

Using a spherical spectrophotometer, a 10,000-watt xenon flash tube bounces light off a siding panel. This information is then analyzed to determine if the color falls within accepted ranges for color consistency and match.

VERTICAL HEIGHT IMPACT TEST

Measures the product's durability and ability to resist impact forces — the result of proper thickness, formulation and impact modifiers.

GLOSS TEST

A digital readout microgloss meter is used to scan siding to determine if its gloss falls within a target range. Gloss is important to the aesthetic appeal of the siding.

A HEALTHY HOME STARTS WITH THE BASICS

You want the best health for your family — and that starts at home. We offer a full line of coordinating accessories so your home can be healthy from the outside in.

WHY DOES VENTILATION MATTER?

Vents protect your home from heat and moisture buildup and keep fresh air moving. Sturdy and well-built, Ply Gem vents are specially engineered to deter insects, birds, and other animals. They're easy to install on all types of siding and come in hundreds of colors and a variety of designer styles. Best of all, Ply Gem vents are constructed of high-performance, long-lasting vinyl ensuring a lifetime of low maintenance.

UTILITY VENTS

Sturdy utility vents provide excellent cross-ventilation for garages, foundations, and range hoods. The louvered exhaust vent is ideal for removing moist air from dryers and bathrooms. Intake louvers and soffit intakes work in tandem with the vents to maximize airflow, helping your family breathe easier. With our utility vents, your home not only looks beautiful but also feels fresher.

GABLE VENTS

Typically installed at the peak of a roof, gable vents promote proper airflow in your attic. Ply Gem gable vents provide maximum ventilation and feature a special snap-on system for easy installation and cleaning. Whether you prefer your gable vents to blend seamlessly with your siding or stand out as a decorative accent, you'll find a variety of stylish options.

VENTURA® HIDDEN VENT SOFFIT

Sculpted in clean lines and smooth surfaces, Ventura Hidden Vent Soffit features a contemporary, long clear span design. It allows 50% more airflow, reducing utility bills and preventing mold and mildew damage.
